

HOW MUCH DO YOU PARTICIPATE?

Now that you have begun to consider different ways of participating in society, think about how much YOU actually participate in society at different level and jot down some examples.

In your NEIGHBOURHOOD...

For example:-

- Are you involved with local groups / organisations?
- What are levels of crime like where you live and do you have an opinion about what should be done? Do you voice that opinion?
- What are the other important decisions made affecting your neighbourhood and who makes them?

In your LOCAL COUNCIL AREA

For example:-

- Do you have any influence over school activities, planning decisions, public transport or community services?
- What do you consider to be the other important decisions made in your area and who makes them?

As a SCOTTISH citizen...

For example:-

- Do you know who your MSP is?
- Have you contacted them?

As a UK citizen...

For example:-

- Do you agree with the UK defence policy or the policy on Higher Education fees?
- Have you made your opinions known?

As a European citizen...

- Have you ever had cause to contact your MEP?
